## Experience

---

### Chubb | Software Developer

Jul 2023 - Present

- Played a pivotal role in delivering an award-winning POC – **Claims Watch (SRE WATCH)**, collaborating across roles to build an intuitive UI and backend integration that enabled real-time insights into application reliability and system performance.
- Led Azure **Key Vault** migration and addressed critical **SonarQube issues** to improve code quality and security across services.
- Contributed to the upgrade of multiple applications from Azure **v1.9 to v2.0**, supporting smoother CI/CD transitions and improved deployment workflows.
- Developed a self-service tool that enabled business teams to **manage key config values independently**, reducing deployment cycles and developer overhead.
- Implemented bulk upload functionality for use cases like **user-roles and relations mapping**, allowing business teams to execute large-scale operations efficiently via Excel templates.
- Mentored freshers across teams, helping them onboard and contribute effectively.
- **Received Gold Excellence Award** for impactful delivery and leadership.

### Chubb | Software Developer Intern

Aug 2022 – Jun 2023

- Helped deliver a quick-turnaround dashboard to replace a broken Qlik dashboard, ensuring business teams restoring essential analytics for business continuity.
- Gained hands-on experience with software development best practices, agile processes, code reviews, and production systems.
- Delivered production-ready features under guidance, actively participating in sprints and releases.
